SUMMIT PROFESSIONAL 24" WIDE BUILT-IN REFRIGERATORS EXTERIOR PHOTOS (See descriptions of models on Pages 4 and 5)

FR Frame

Stainless steel two piece frame (no top seams) to accept custom panels (Panel size is 28 1/8" H X 23 1/8" W). Illustrated on left is FF7BIFR or BI540 and on right, BI541B or FF7BBIFR. Inset shows the 16" inch professional stainless steel handle included with the frame.

FR Frame (Illustrated on model with front lock)

Fully stainless steel two piece frame with no top seams (Customer must allow for lock and key on custom panels. See our web site for details). Shown is FF7LBIIFR

IF Frame (Full overlay panel)

Convertible frame to accept either full overlay panels (for freestanding use) or integrated panels with included replacement hinges (for built-in applications) Handle not included with kit. See our web site for panel specifications. Shown is BI541IF or FF7BIIIF.

SSTB Doors

Set of built-in under-counters with SSTB finish. SSTB finish must be ordered in RHD or LHD. Illustrated is FF7BBISSTB and SCFF55SSTB(LHD)

SSTB Door

Wrapped stainless steel with pro stainless steel 12 inch handle (Shown on FF7BBI or BI541B)

SSHH Door

Wrapped stainless steel door with pro stainless steel horizontal handle (full width). Shown at left is FF7BIISSHH or BI540SSHH. Shown at right BI541BSSHH or FF7BIISSH.

SSTB Door

SUMMIT SSTB wrapped door models have seamless corners and use only 304 grade real stainless steel. Shown on white cabinet (CT67).

SUMMIT wrapped doors have seamless edges and top corners and factory installed professional stainless steel handles

CSS Finish

Completely stainless steel. Uncoated high-grade stainless steel, wrapped cabinet; includes an SSTB door finish. Shown at left on non lock models (FF7CSS or FF8SSTB or BI541BCSS) and on right on locking models (FF7LBISS or BI541LCSS).

SUMMIT PROFESSIONAL 24" WIDE BUILT-IN REFRIGERATORS INTERIOR PHOTOS (See descriptions of models on Pages 4 and 5)

Interior of all FF7BI models in white with wire shelves. (Shown is FF7BI). FF7 is a commercially approved all-refrigerator with automatic defrost, featuring SUMMIT's unique "hidden" evaporator.

Interior of all FF7BBI models in black with glass shelves. Shown is model FF7BBI. FF7B is a commercially approved all-refrigerator with automatic defrost, featuring SUMMIT's unique "hidden" evaporator.

Interior of BI541B in black with standard glass shelves. BI541B is a refrigerator-freezer with dual evaporator cooling.

Interior of FF7CSS, FF7LCSS, FF8SSTB or FF8LSSTB, all-refrigerator with automatic defrost and full stainless steel wrapped cabinet and door with 12 inch pro vertical handle. All models feature SUMMIT's unique "hidden" evaporator.

Interior of all FF6BI and FF6LBI models (available in white only): all-refrigerator with automatic defrost. All models feature SUMMIT's unique "hidden" evaporator.

Interior of all FS62BI and FS62LBI models. Minus 25 degree (Celsius) all-freezer with manual defrost and three interior drawers for energy savings.

Interior of all CT67BI models with glass shelves and a standard black frame to accept custom panels. CT67 is a refrigerator-freezer with dual evaporator cooling (manual defrost freezer and automatic defrost fresh food section)

Interior of all SCFF55BIM models: frost-free freezer with installed ice-maker. Fan cooled interior and adjustable shelves. Shown in black, also available in white (SCFF55IM) or in complete stainless steel (SCFF55CSSIM)

Interior of all BI540 white with wire shelves. BI540 is a refrigerator-freezer with dual evaporator cooling.

Interior of all SCFF55B frost-free freezers in black (glass shelves). Fan cooled interior and adjustable shelves.

Interior of all SCFF55 frost-free freezers in white (wire shelves). Fan cooled interior and adjustable shelves. Optional ice maker available.

PROFESSIONAL BUILT-IN 24" WIDE ALL-REFRIGERATORS

See Photos on Page 2 (exterior) and Page 3 (interior)

SUMMIT PROFESSIONAL offers a choice of built-in under-counter 24 inch wide models in all-refrigerator (this page), all-freezer (opposite page) or refrigerator-freezers (see Page 6). Several models are available with front-mounted locks, and all have a standard door frame for custom panels and stainless steel handle, with the option of a wrapped stainless steel door or full stainless steel cabinet. Models with frames have reversible doors, and models with a wrapped stainless steel door and our horizontal (HH) handle are also reversible, while our popular wrapped stainless steel door and pro vertical 12" handle (SSTB) can be ordered with a right or left hand door swing.

SUMMIT PROFESSIONAL models offer as much quality on the inside as beauty on the outside. Our all-refrigerators feature our unique hidden evaporator (behind the rear wall) for a seamless interior liner that looks better and operates more efficiently. This results in one of the largest shelf sizes in the industry. SUMMIT refrigerator-freezers all include our exclusive dual evaporator cooling system, with a separate system for the freezer (which will keep ice-cream frozen) and a hidden evaporator for the fresh food section. All of our 24 inch wide refrigerators include interior lights, adjustable thermostats and adjustable shelves.

SUMMIT PROFESSIONAL truly offers the best combination of elegance, quality, dependability and value in the industry.

FF7BI Series

FF7BI models are approved for commercial use, and carry UL and ETL Sanitation approval (complies with ANSI-NSF Standard 7). Available in white, black or stainless steel. The interior light on these models is controlled with a on/off rocker switch. FF7BI models have one of the widest and deepest shelves in the industry, and can accommodate trays up to 19 1/2 inches by 16 inches. All FF7BI Models are all-refrigerator and have automatic defrost. All feature SUMMIT's unique "hidden" evaporator for a clean seamless interior. Capable of maintaining interior temperatures in the 2°C to 6°C range (36°F to 44°F). Models with white cabinets include wire shelves and models with black cabinets have glass shelves. Optional stainless steel shelves are available for all models.

FF6BI Series

FF6BI models are similar to FF7BI but include a new European-designed luxury interior with shelves on the door, a full crisper and an automatic interior light. FF6BI has the same features as FF7BI. For commercial versions of Model FF6BI; see Page 43.

Model	Capacity	Height	Width	Depth	Defrost	Door Swing	Door Color	Cabinet Finish

SUMMIT PROFESSIONAL BUILT-IN 24 INCH WIDE ALL-FREEZERS CHOOSE FROST-FREE WITH OPTIONAL ICE-MAKERS OR MANUAL DEFROST

See Photos on Page 2 (exterior) and Page 3 (interior)

SCFF55 BUILT-IN FROST-FREE COMMERCIAL FREEZER

Bring the convenience of frost-free operation to under-counter built-in freezers, with SUMMIT SCFF55. Available in a white, black or stainless steel cabinet with a choice of door styles and handles, including our popular wrapped stainless steel door with a choice of professional towel bar handles. Now add the convenience of an optional ice-maker to any SCFF55. All base models of SCFF55 are U.L. and U.L.-Sanitation Approved (equal to NSF-7) for household or commercial use. Models with ice-makers are not listed for commercial use.

Model SCFF55 has fan forced interior cooling for even temperature distribution, an adjustable thermostat, and never needs defrosting. The foamed in place insulation and solid foamed door also enhance energy efficiency. The interior offers some of the largest shelves in the industry, capable of holding trays up to 19 1/2 inches wide by 16 inches deep. All shelves are adjustable. Model SCFF55 is an exact match to SUMMIT COMMERCIAL all-refrigerator FF-7BI, and makes a perfect side by side set in white, black or stainless steel.

Model SCFF55 features an interior light (not available on models with ice makers installed); adjustable shelves; U.L. Approval; U.L. Sanitation Approval (meets NSF-7); 100% CFC Free (Uses R-134A); 110 Volts, 60 Hz. 1.5 amps; fan forced interior commercial cooling system; frost-free operation; reversible door swing on base models (on SSTB or CSS models with stainless steel pro handles order RHD/LHD); adjustable thermostat and is built-in capable.

FS62BI UNDER-COUNTER FREEZERS

SUMMIT PROFESSIONAL FS62BI freezers are innovative and elegant; yet are engineered to be capable to meet standards for commercial use. Extra thick insulation and three removable interior drawers reduce energy waste. Choose a model with a stainless steel frame ('FR' or 'IF') for custom panels, or a wrapped stainless steel door (SSTB or SSHH) or stainless steel cabinet (CSS). Capable of -25°C (-13°F) operation.

FS62BI features

- Manual defrost
- Reversible door on FS62BIFR,
- Order RHD or LHD on SSTB and CSS models
- 3 interior (removable) baskets
- Capable of -13°F operation
- Adjustable thermostat on front of unit (mounted at rear on CSS models)
- Power-on light (except CSS model)
- Fan cooled compressor

For commercially approved versions of models FS62 and SCFF55 see p.44
For commercially approved glass door versions see p.45

BIM44	Built-in 15 inch wide ice-maker with platinum finish door and full pro handle.
FS62BI	White all freezer (manual defrost) with fixed wire shelves under the removable drawers. Reversible door.
FS62LBI	Same as above with a front-mounted lock
SCFF55	Frost free all freezer with white cabinet and door, built-in capable, with wire shelves and reversible door. Matches FF7BI all-refrigerator.
SCFF55L	Same as above with front mounted lock
SCFF55-IM	Same as SCFF55 but with factory installed ice-maker.
SCFF55L-IM	Same as SCFF55L but with factory installed ice-maker and front lock.
SCFF55B	Frost free all freezer with black cabinet and door, built-in capable with glass shelves. Reversible door.
SCFF55LBL	Same as above with front mounted lock
SCFF55B-IM	Same as SCFF55B but with factory installed ice-maker
SCFF55LBL-IM	Same as SCFF55LBL but with factory installed ice-maker.

BIM44 Built-In Ice-Maker

SUMMIT PROFESSIONAL **BIM44** has fully finished sides and a front-breathing cooling system for freestanding or built-in use. Insulated ice storage bin with a front opening door. Platinum finish, reversible door with a professional style stainless steel handle. Operates with a drain, optional pump, or can be used with no drain (requires manual emptying of water tray and is not recommended).

CSS	Fully wrapped stainless steel cabinet and wrapped door with 12" pro handle. Decal not included.							

BUILT-IN UNDER-COUNTER GLASS DOOR ALL-REFRIGERATORS

SUMMIT PROFESSIONAL SCR-600 built-in models are derived from our commercial models, and are designed for serious use. Yet, they have the style and elegance you'll love in your kitchen, bar area, rec room or den. These models all meet standards for commercial use, (ETL-Sanitation; complies with ANSI/NSF-7) and are fully finished to be used either freestanding or built-in. All models feature SUMMIT's "hidden" evaporator (behind the rear wall) for a clean seamless interior liner, and some of the largest shelves in the industry. All are fully automatic defrost, and all have fan cooled compressors. Models with white cabinets have wire shelves, and models with black or stainless steel cabinets have standard glass shelves. Basic models all have reversible doors, but optional stainless steel pro handles must be ordered with RHD or LHD. All models have an interior light (on a rocker switch).

SCR600BLBI

SCR600LBISH

SCR600BLCSSRC
(Includes a TB handle standard).

12" TB handle is optional on any SCR600Model

SCR600BLBI	Built-in under-counter glass door all-refrigerator with automatic defrost. Black cabinet with glass door with aluminum frame, glass shelves, front lock and black handle on base model. Reversible door on base model. On models with handle upgrades, specify RHD or LHD swing.
SCR600LBI	Same as above in white. White door trim around glass, white cabinet and kickplate, wire shelves.
SCR600BLBIPUB	Same as SCR600BLBI, but for storage of European ales or red wine, with a digital thermostat, mounted in the kickplate with a preset range of 50 to 68°F (10 - 18°C), that can be set exactly by the consumer. (Range can be overridden for use as a beverage center, if desired). Full glass shelves, with one included wooden shelf.
SCR600LBIPUB	Same as above in white. White door trim around glass, white cabinet and kickplate, wire shelves.
SUFFIX	OPTIONAL FINISH
TB	Add a 12 inch professional stainless steel towel bar handle (SCR600BLBITB or SCR600LBITB). Order RHD or LHD
SH	Add a full length stainless steel handle (SCR600LBISH or SCR600LBISH). Order RHD or LHD
HH	Add a full width horizontal professional thin stainless steel handle (14 mm diameter). (Note: this handle will interfere with the easy operation of the door lock, and is offered for those wishing to match handles with other cabinets, and where the lock use is not primary).
SHWO	Our popular refreshment center. A full length stainless steel (SH) handle plus 2 wooden shelves and 2 beverage shelves. SCR600LBISHWO (black cabinet) or SCR600LBISHWO (white cabinet). Order RHD or LHD.
CSS	Seamless stainless steel cabinet (sides and top), includes a 12 inch TB handle. Order RHD or LHD. SCR600BLCSS (black kickplate and aluminum trim around the glass door) or SCR600LCSS (white kickplate and white trim around the glass door). CSS model are always built-in and do not require the 'BI' suffix.
CSSRC	Refreshment center. Full stainless steel cabinet, full length stainless steel handle (SH), and two wooden and two glass shelves. Same features as models 'CSS' above.

ALL SCR600 MODELS ARE COMMERCIAL QUALITY, WITH OVERSIZED COMPRESSORS FOR MORE RAPID TEMPERATURE RECOVERY AND ARE ETL-SANITATION LISTED (MEET ANSI-NSF STANDARD 7)

SCR600LCSS

SCR600BLBISHWO

FEATURES OF ALL MODELS

- Fully automatic defrost
- Adjustable thermostat
- Front mounted lock
- Adjustable shelves
- Interior Light
- Cold wall design (no evaporator is visible inside the refrigerator)
- Oversized compressor for better cooling
- European designed and built for SUMMIT

For similar products for commercial use; see Page 43
For models approved for outdoor use see Page 11
For freestanding models, see Page 30

Models with black cabinets and CSS models all have standard glass shelves

PUB CELLAR™

Many ales and red whites are ideally stored at warmer temperatures than refrigerators and cooler than room temperature. Introducing SUMMIT Pub Cellars™ with a digital thermostat for any temperature.

BUILT- IN UNDER-COUNTER BEER DISPENSERS

SBC490BIFR

For built-in beer dispensers, SUMMIT offers more choices and better value, with our SBC490BI series. Models are available with a frame for custom panels (SBC490BIFR) or with a wrapped stainless steel door and pro stainless steel handle (SBC490BISSTB). Both models can be ordered with single (standard) or twin or triple tap systems. And SUMMIT SBC490BI series offer the same versatility as all SBC490 models, with automatic defrost, the option to use it as a refrigerator when not storing beer kegs; a stainless steel floor, and an attractive guard rail included.

Model SBC490BI brings SUMMIT's experience in beer dispensers to the under-counter built-in market, with a convertible model that are full size: for half, quarter or pony kegs, or converts to a refrigerator with included shelves. Automatic defrost and adjustable thermostat. Finished sides and top for freestanding use when not built-in.

All SBC-490BI models include a top rail, casters, a stainless steel floor mat and shelves to convert the unit into a refrigerator. A base model, (SBC490BINK) is available without the dispensing kit and CO₂ tank, for aficionados who wish to install custom tapping systems. All other models include a 5 lb. CO₂ tank with regulator, Sankey American tap (European taps are available as an option), draft tower, drip tray, manifold and a cleaning kit. These parts are also available in one kit (KIT490)

SBC490BIFR
with custom stainless steel panel insert

SBC490-BINK	For those selecting their own custom tap equipment: built-in beer cooler only, without dispenser kit
SBC490BI	Black door and cabinet complete with full dispenser kit and CO ₂ tank with regulator included.
SBC490BI-TWIN	Same as above with twin dispenser kit.
SBC490BI-TRIPLE	Black with triple taps for three mini kegs.
SBC490BIFR	Black with stainless steel frame for custom panels. Panel size 31"H X 23"W
SBC490BIFR-TWIN	Black with frame for custom panels and twin taps for two mini kegs. Triple tap is also available.
SBC490BI-SSTB	Same as SBC490BI with wrapped seamless stainless steel door and pro 12" handle.
SBC490BI-SSTBTWIN	Same as above with twin tap for 2 mini kegs

BUILT - IN 24 INCH WIDE UNDER-COUNTER WINE CELLARS

SUMMIT under-counter wine cellars set the quality standard. Ours are fully auto-defrost, and have a cold wall design (the evaporator is hidden behind the rear wall). Our base model SWC6G (in white or black) is approved for commercial use (models with wooden shelving do not meet these standards) and all models on this page with scalloped or flat chrome shelves have ETL-Sanitary (commercial) approval (comply with ANSI-NSF standard 7). All models are complete with a factory lock, and all models either have reversible doors or can be ordered with a left or right hand door swing. With our innovative stainless steel handle mounting bracket, models with factory frames can accommodate your custom panels and custom handles.

STEP 1: SELECT YOUR CABINET

- White
- Black
- Stainless steel

SWC6GBLICSSWO SWC6GWLBIHWO SWC6GBLBISHWO

STEP 4: SELECT HANDLE

- TB - 12" towel bar handle
- SH - Door length towel bar handle (shown at right- center)
- HH - (on non lock models) 14mm full width stainless steel handle (not shown)
- 16" Pro stainless steel handle (standard with frame - shown at far right)

STEP 2: SELECT YOUR DOOR

- Glass door with white frame
- Glass door with aluminium frame
- Solid door (in white or black)
- Solid door with stainless steel frame for custom panels
- Solid door with frame for full overlay panels
- Stainless steel wrapped door

OUTDOOR STAINLESS STEEL REFRIGERATORS

SUMMIT PROFESSIONAL is taking the lead in refrigerators with U.L. approval for outdoor use. Our outdoor models exceed the U.L. safety requirements by incorporating a Ground Fault Circuit Interrupter (GFCI) with automatic reset into every model, as well as including 100% redundant weatherproofing to keep all electrical components from the elements. Choose from a stainless steel all-refrigerator with a glass or stainless steel door, or a 3 drawer stainless steel all-refrigerator. Now, bring the convenience of Summit under-counter refrigeration safely outdoors. **Models in red, below, are approved for commercial use (ETL-S meets NSF-7).**

The pinnacle of SUMMIT's outdoor line is our extensive selection of drawer refrigerators, fully finished (interior and exterior) in stainless steel and suitable for built-in or freestanding use. These rugged models have all the same features as our indoor models, but have sealed backs and an enhanced forced air cooling system to stand up to the heat and elements. Choose two drawer or three drawer models, with a choice of handles.

SPR601BLOS

SCR600LOS

SCR601BLOSRC

SPR7OS	All-refrigerator with stainless steel cabinet, wrapped door and pro handle. Large 5.5 cu.ft. capacity and front lock. Automatic defrost & glass shelves. For freestanding use.
SPR7OSBI	Same as above for built-in or under-counter use.
SPR6OS	All stainless steel, full handle, reversible door.
SPR6OS2Z	Two glass doors, 2 zones for beverages and wines.
SCR600LOSSD	UL-S (meets NSF-7) approved for commercial use, Stainless steel cabinet; front lock and 12 inch stainless steel handle.
SCR600LOSBISSD	Same as above for built-in or under-counter use.
SPR601BLOS	Stainless steel cabinet; glass door with aluminum trim; front lock and 12 inch stainless steel handle. Glass shelves
SPR601BLOSRC Refreshment Center	Stainless steel cabinet; glass door with aluminum trim, front lock; full stainless steel handle. 2 wooden wine and 2 glass shelves.
SCR600LOS	UL-S approved (meets NSF-7), Stainless steel cabinet; glass door with white trim; front lock and 12 inch stainless steel handle.
SCR600LOSRC Refreshment Center	Same as above but with full length stainless steel handle. 2 wooden and 3 wire shelves for all beverages.
SP6DSSTBOS	3 drawer, all stainless steel (interior and exterior) outdoor refrigerator with 3 full stainless steel towel bar handles. All-refrigerator, automatic defrost. Use built-in or freestanding.
SP6DSSTBOSThin	Same as above but with thin (14mm diameter) horizontal handles that match many outdoor cabinet lines.
SP6DS2DOS	2 drawer outdoor all-refrigerator with automatic defrost and thin stainless steel (14mm diameter) handles. The top drawer accommodates 2 liter and tall wine or water bottles easily. Interior baskets to help organize contents are standard.
SP6DSSTBOSVTL	Same as SP6DSSTBOSTHIN, but with vertical grain on the stainless steel drawer fronts, and a slightly higher top drawer face to perfectly match many stainless steel kitchen cabinet installations.

SUMMIT 24 INCH WIDE REFRIGERATOR AND FREEZER DRAWERS

SUMMIT PROFESSIONAL is a leader in built-in under-counter two and three drawer refrigerators and freezers. We offer a choice of all-refrigerators or all-freezers with an optional ice-maker in the two-drawer freezer. All models are fully stainless steel: the cabinets, drawer fronts and the interior drawers. All models can be built-in under counter or used freestanding, with a width and depth of just under 24." Heavy duty stainless steel glides and seamless stainless steel cabinets and drawer fronts add elegance and convenience to any home, office or hotel suite.

NO-FROST ALL-REFRIGERATOR DRAWER MODELS	
SP6DS	All stainless steel (interior and exterior) 3 drawer refrigerator with fan assisted cooling and recessed handles. Adjustable thermostat.
SP6DS2D	Same as above with 2 drawers and full stainless steel handles; includes kit to install panels.
SP6DSSTB	Three drawer all refrigerator with full pro stainless steel towel bar handles.
SP6DSSTBThin	Same as above with 3 full width thin (14mm diameter) stainless steel handles.
ALL-FREEZER DRAWER MODELS	
SPF5DSSTB	All stainless steel (interior and exterior) three drawer freezer (manual defrost) with fan assisted interior cooling and three full stainless steel towel bar handles. Matches SP6DSSTB.
SCFF552D	Frost-free freezer with two drawers, all stainless steel. Matches SP6DS2D.
SCFF55IM2D	Same as above with built-in ice maker. Matches SP6DS2D.

FEATURES

- Only 24 inches wide
- Full seamless stainless steel cabinet
- Wrapped stainless steel drawers
- Professional stainless steel handles
- Fan cooled compressor
- For built-in or freestanding use
- Heavy duty rollers
- Commercial cooling system
- Fully automatic defrost
- Internal forced air circulation
- Drawer interiors are stainless steel
- Four level legs
- Anti tip bracket included
- Custom panel installation kit included (SP6DS2D only)
- Two removable baskets included (SP6DS2D)
- Rapid chill compartment (SP6DS2D)
- Energy efficient design
- Adjustable thermostat
- Magnetic gaskets

SP6DS2D Two-drawer all refrigerator (with kit to accept full overlay panels)

SUMMIT PROFESSIONAL **SP6DS-2D** is a unique 24 inch wide two-drawer refrigerator, fully finished in stainless steel with full width stainless steel professional towel bar (14mm diameter) handles. It combines elegance, functionality and versatility because it can convert to a custom unit in minutes. Fully finished to use freestanding, but a fan cooled compressor allows built-in use. SUMMIT PROFESSIONAL SP6DS-2D is perfect for kitchens as a second convenience refrigerator, wet bar areas, dens, basements and other entertainment areas. The large top drawer (17 3/16 inches wide by 15 3/4 inches deep by 12 1/2 inches high) can accommodate virtually any sized bottle or oversized food item, including two liter bottles, wine bottles or tall water bottles and includes a removable platinum finish storage basket.

The bottom drawer (18 1/16 inches wide by 11 1/2 inches deep by 9 1/2 inches high) can easily hold dozens of cans, long-neck bottles, fresh foods or fruits and vegetables. A rapid chill compartment, in the rear of the bottom drawer measures 18 1/16 inches wide by 4 1/2 inches deep by 4 inches high. It can chill a bottle of white wine or several cans of beer, soda or other beverage from room temperature to drinking temperature in less than an hour. Many consumers find SUMMIT drawer refrigerators ideal for children to grab snacks or beverages without having to open a large refrigerator.

The most novel feature of the SP6DS-2D is how easy we've made it to install custom full overlay panels. We've included easy directions and a kit to do the conversion, which can be accomplished in a matter of minutes. Your SUMMIT drawer refrigerator is also packed with quality to go along with its elegance. Capable of freestanding or built-in use, it has "no-frost" forced air cooling, an adjustable thermostat, removable drawers, high quality glides, and stainless steel drawer interiors. The cooling system in the SP6DS-2D is the same system used in many SUMMIT commercial refrigerators, with a perfectly balanced compressor, evaporator and condenser that meet tough commercial cooling standards, but use very little energy. Four level legs allow perfect height adjustment.

SP6DS2D / SCFF552D

SP6DSSTB is a three drawer all-refrigerator, 24 inches wide, fully stainless steel, with three full professional stainless steel towel bar handles. It is fully finished for freestanding or built-in use, and offers no-frost convenience and a fan cooled interior. The drawer interiors are fully stainless steel.

SP6DSSTBThin is the same as above but with thin (14mm diameter) professional handles.

SP6DS is the same as SP6DSSTB above but with three fully recessed handles.

SUMMIT DRAWER FREEZERS

Summit offers both manual defrost and frost-free drawer freezers – to meet the needs of a variety of customers. All are finished fully in stainless steel and perfectly match our drawer refrigerators. All models are 24 inches wide, capable of freestanding or built-in use, and maintaining ideal freezer temperatures. Our frost-free SCFF552D models can be ordered with factory installed icemakers.

SCFF55IM2D Frost-free freezer – SUMMIT SCFF55IM2D is a perfect match to our two-drawer all –refrigerator, and offers the same easy conversion to accept full overlay panels. This model has a factory installed icemaker (no drain required), and forced air cooling in both compartments.

SCFF552D Frost-free freezer is the same as above without the icemaker. Two drawers, 24 inches wide, and fully stainless steel with thin horizontal stainless steel full width handles.

SPF5DSSTB is a three drawer manual defrost freezer that matches all-refrigerator SP6DSSTB, and contains extra thick insulation, all stainless steel construction (including drawer interiors), and a powerful static cooling system.

FROST FREE BOTTOM-FREEZER REFRIGERATORS

SUMMIT now makes it easier than ever to fit smaller kitchens with the elegance, capacity, and quality found in built-in refrigerators costing thousands of dollars more. Our European frost-free bottom-freezer models are Energy Star compliant, solidly built, and featured with every convenience we could think of. Choose white or real stainless steel doors with elegant aluminum handles and color-matched cabinets. The interiors are thoughtfully appointed with plenty of glass shelves plus a stainless steel rack for keeping wine or large bottles conveniently. Door shelves and crispers are all transparent to help locate items quickly, and are easily adjustable. Freezer drawers help keep cold in and keep food better preserved. A slide-out ice tray is also standard. Quality features include quiet design, energy efficiency built into every component, a one piece seamless interior liner and tempered safety glass shelves. Oversized level legs are easy to use.

FF1625SS	Full size frost-free refrigerator-freezer, 29 1/4 inches wide, but only cabinet depth (27 inches deep) for kitchens needing a shallow depth. GENII stainless steel doors, platinum sides, glass shelves and deluxe interior. Huge door storage, reversible doors and recessed handles.
FF1425SS	Ideally sized full size frost-free refrigerator, only 26 inches wide and deep. GENII stainless steel doors, platinum sides, glass shelves, reversible door and recessed handles.
FF1325SS	One of the largest frost-free refrigerators available with a 24 inch width and 24 inch depth with an extra large freezer compartment. GENII stainless steel doors, platinum sides, glass shelves, recessed handles, reversible doors, huge shelf area and door storage.
FF1150SS	Frost-free Energy Star Listed refrigerator-freezer with an ideal size for apartments or smaller kitchens, under 24 inches wide and under 60 inches high, with over 10 cu.ft. of capacity. Stainless steel doors, black cabinet, reversible doors, recessed handles, and a freezer shelf.
FF985SS	Frost-free, easy to fit, only 24 inches wide and deep, value priced refrigerator-freezer with GENII stainless steel doors and platinum cabinet, recessed handles, reversible doors and convenient door storage.
FF1625SSIM*	Same as FF1625SS with factory installed ice-maker.
FF1425SSIM*	Same as FF1425SS with factory installed ice-maker.
FF1325SSIM*	Same as FF1325SS with factory installed ice-maker.
FF1150SSIM*	Same as FF1150SS with factory installed ice-maker.

GENII stainless steel doors on models FF1625SS, FF1425SS, FF1325SS and FF985SS, is the next generation of door finishes to blend the elegance and grain of stainless steel, with the ease of cleaning of conventional finishes. GENII Stainless steel is a remarkable blend of metals, putting a stainless steel coating (rather than just a painted imitation) on rust-proof galvanized steel, and finishing with a thin clear lacquer coating that is easy to clean. Consumers get the best of all worlds, with an actual stainless steel material, grain and appearance; magnetic properties (from the under-the coating-steel), and cleaning ease with our fingerprint-free coating. Model FF1150SS continues to utilize lacquer coated solid stainless steel for a fingerprint-free luxurious finish.

SUMMIT has long provided one of the most extensive lines of frost-free refrigerator-freezers for the smaller kitchen, with over 30 models from 5 cubic feet up to 15 cubic feet, in white and stainless steel, including a half dozen with Energy Star listings. We know there are many kitchens and lifestyles that demand models with specific widths, heights or depths, and we have choices for virtually any of these situations. We also feature many of our models with very deluxe interiors, including glass shelves in selected models, and optional ice-makers in some (base units are not ice-maker ready, and customers must specify ice-maker installation at time of order).

CYCLE DEFROST AND MANUAL DEFROST REFRIGERATOR-FREEZERS

“Thin line” Models and Innovative Two-Compressor Models

CP171W

CP171W interior

CP171SS

As one of SUMMIT'S most innovative designs, the CP171 series is designed with two compressors. This allows an independent cooling system in both compartments with 2 separate thermostats; automatic defrost in the fresh food section and manual defrost in the freezer. These deluxe models come with a spacious and well designed interior, a bottom freezer with three removable drawer compartments which prevents temperature drop when the door is open and twin crispers ideal for your storage needs. Designed by renowned Danish artist David Whitten Lewis, the designer of Bang and Olufsen audio systems, the CP171 series is built for Summit in Denmark and is designed to conserve energy (two compressor refrigerators are classified as commercial as the DOE standards are based on single compressors only), and only consume less than 10¢ per day of electricity (at national average).

CP171SS	Two-door, two compressor, bottom freezer, cycle defrost, with a large 40% freezer compartment, designed for elegance, style and energy savings. Reversible doors, matching designer handles, door storage, adjustable glass shelves and a wine rack.
CP171W	Same as above in white finish.
CP133	Two door, cycle defrost refrigerator-freezer with ideal dimensions under 24" wide and under 60" high, yet with over 10 cu.ft. of capacity. Reversible doors, interior light, adjustable shelves, full crisper, and huge door storage. Energy efficient operation and large 0°F freezer.
CP97	Same features as the CP133 in an easy to fit size. Recessed handles, only 24" deep overall, and under 21½" wide.
CP89	Same features as the CP133 for hard to fit spaces. Ideal for dormitories, mobile homes, ships and senior residences. Meets requirements for ADA accessibility. Energy efficient design and sturdy handles. Reversible doors. Ideal with microwave on top.
CM117	Great value in an easy to fit single door refrigerator. Full features such as reversible door, interior light, door storage, full crisper, adjustable thermostat and adjustable shelves. Recessed handles

Model	Capacity	Height	Width	Depth	Defrost	Door Swing	Door Color	Cabinet Finish
CP171W	12 cu.ft.	81"	23 ¾"	24"	Cycle	Reversible	White	White
CP171SS	12 cu.ft.	81"	23 ¾"	24"	Cycle	Reversible	Stainless Steel	Platinum
CP133	10.1 cu.ft.	60"	23 ¾"	24"	Cycle	Reversible	White	White
CP97	8.3 cu.ft.	57"	21 ½"	24"	Cycle	Reversible	White	White
CP89	5.9 cu.ft.	44"	19 ¾"	24"	Cycle	Reversible	White	White
CM117	8.8 cu.ft.	57"	21 ½"	24"	Manual	Reversible	White	White

CM117

CP133

Models CP133, CP97 and CP89 meet the need for many apartments where space is tight, yet a quality, energy efficient refrigerator is needed. All are cycle defrost with manual defrost freezers and automatic defrost refrigerator sections. All have reversible doors and convenient door shelves. Model CM117 is our manual defrost single door refrigerator-freezer with large capacity in a small cabinet, door storage, reversible door and a value price.

CP89

CP97

WHAT DOES CYCLE DEFROST MEAN, AND HOW IS IT DIFFERENT THAN FROST-FREE?

We're frequently asked this question, and here is the explanation. Cycle defrost pre-dated frost free by a few decades. Cycle defrost is a mechanical design, putting the evaporator (the part of a refrigerator that removes heat from the contents) in a position that water dripping from it can be easily collected. During the "off" cycle of the compressor, (the "motor" of a refrigerator or freezer), ice melts, gravity helps it drip down, where a tray and piping remove the accumulated water and it is evaporated. Thus, a cycle defrost refrigerator does build some ice, but removes it itself on a "cycle". A freezer is not usually cycle defrost, because the temperature is normally too low to melt the ice layer (although SUMMIT offers some models with full auto-defrost in both the refrigerator and freezer compartments utilizing the same concept). Frost-free design incorporates a timer and defrost heater, that periodically heats the evaporator to melt the ice. This design allows the evaporator to be placed anywhere and in any shape, as fans are used to distribute cold air when the compressor is running. In the US, frost free has grown in popularity on large household refrigerators, due to convenience, while mass production allowed its cost to become the same or lower than cycle defrost. In the scientific community, frost-free is not desired for certain applications, as there may be a greater temperature swing during the heater operation. Some apartment owners and consumers still prefer cycle defrost for their simplicity, low energy consumption and ease of repair. At SUMMIT, we continue to market a large product line incorporating cycle defrost, for customers that continue to have the need for storage free from fans and internal heaters. But, in step with the majority of users, we continue to expand and innovate our line of frost-free refrigerators and freezers. The choice is yours.

UNDER-COUNTER BUILT-IN 24" WIDE REFRIGERATOR-FREEZERS

FULL 6 CU. FT. OF CAPACITY, MANUAL OR FULLY AUTO-DEFROST

SUMMIT **BI605** is a workhorse built-in refrigerator-freezer with a full 6 cu.ft. of capacity, solid construction, a reversible door and door storage. Available in white or black finish or with our signature wrapped stainless steel door with a professional stainless steel handle (suffix SSVH) or with a stainless steel frame* to accept custom panels. (Panel Size is 30 1/8" H X 23 3/8" W) Model BI605 has been a fixture in the SUMMIT line for two decades, used extensively in apartments, efficiency kitchens, university and military housing, institutional kitchens and by many other users.

BI605B / BI605BFF

BI605 / BI605FF

BI605BFR / BI605BFFFR

BI605SSVH / BI605FFSSVH

BI605BFF shown open on the left features a digital thermostat for improved temperature control.

BI605BSSVH

BI605B Interior

BI605 / BI605SSVH interior

For customers seeking the utmost in convenience, Model **BI605FF** (white) and **BI605BFF** (black) are fully auto-defrost in both the fresh food and freezer sections. Both have a digital thermostat for precise temperature control, and the same features as the BI605. These models are also available with a frame* for custom panels, or a wrapped stainless steel door and pro handle (Suffix SSVH).

BI605	Large capacity refrigerator-freezer with manual defrost. It has a bottom condenser and fan forced front breathing. White finish with black kickplate. Includes interior light, reversible door, storage and 20°F freezer.
BI605B	Same as above in black finish.
BI605FF	Same as BI605FF with full auto-defrost system and a precision digital thermostat. Reversible door. White finish.
BI605BFF	Same as above in black finish
Suffix	Description
SSVH	Add a fully wrapped stainless steel door and pro stainless steel full vertical handle to any BI605 model. Order RHD/LHD
FR	Add a stainless steel frame to any BI605 to accept custom panels. Panel size is 30 1/8" H x 23 3/8" W. 16" pro handle included

* Model BI605 in prior years was offered with plastic "Z" clips to accept thin custom panels. This option has been replaced with our new two piece stainless steel frame that accepts panels up to 1/4 inch, and offers a more professional appearance. For those who own older models, we will continue to stock "Z" clips and stainless steel panels for that size.

Model	Capacity	Height	Width	Depth	Defrost	Door Swing	Door Finish	Cabinet Finish

CT67

CT66 / CT66L interior

IMAGINE A COMPACT REFRIGERATOR THAT CAN KEEP ICE CREAM FROZEN!

SUMMIT answers the need for high quality counter high refrigerators with our CT-66 and CT-67. Both have 4 star freezers which safely store frozen foods at near zero degrees. The unique dual evaporators provide separate cooling for the freezer and refrigerator, with plenty of reserve capacity. These units are ideal for studio apartments, dormitories, senior residences, hospitals, hotels or in recreation rooms or bars. The design of the CT-66 and CT-67 is also elegant, and can be customized with wrapped stainless steel doors (all models) or custom panels (CT-67, CT-66FR or CT-66BFR)

SUMMIT'S EXCLUSIVE DUAL EVAPORATOR CONSTRUCTION WITH HIDDEN FRESH FOOD EVAPORATOR (MODELS CT66 AND CT67)

IMAGINE NEVER HAVING TO DEFROST YOUR COMPACT REFRIGERATOR-FREEZER EVER AGAIN

(MODELS FF41 & FF43)

Over 20 years ago, Summit pioneered some of the most unique counter height refrigerator-freezers in the industry; with two-door models capable of keeping frozen foods at 0°F; or fully automatic defrost refrigerator-freezers; popular with hotels, offices, and institutions where defrosting a refrigerator is a messy job nobody wants. With decades of proven reliability, these models continue to offer outstanding overall value and the ultimate in convenience.

FF41	Counter-height, fully auto-defrost (in both compartments) refrigerator-freezer with 3.6 cu.ft. of capacity. Features include door storage, fruit and vegetable crisper, timer defrost system, door storage and reversible door. White finish.
FF41WL	Similar to FF41, with a front lock and the same features. Slightly different dimensions (See table below) and no vegetable crisper.
FF43	Same as FF41 in black finish.
FF41SS	Same as FF41 with a wrapped stainless steel door and recessed handle.
FF41SSTB	Same as FF41SS with a stainless steel pro style 12" handle.
FF43SS	Same as FF43 in black with a wrapped stainless steel door
FF43SSTB	Same as FF43SS with a 12" pro style stainless steel handle
CP35	Two-door, cycle defrost (manual defrost freezer and automatic defrost fresh food section), counter-height, freestanding refrigerator with separate zero degree freezer. Reversible doors, door storage in both sections, 2.9 cu.ft. of capacity. White finish. Energy Star listed.
CP35B	Same as above in black finish. Energy Star listed.
CP35LL	CP35 in white with 2 side mounted locks installed.
CP36	Similar to CP35, but with slightly different dimensions (See box below)
CP36B	Same as CP36, but in black finish.

Model	Capacity	Height	Width	Depth	Defrost	Door Swing	Door Finish	Cabinet Finish

COMPACT ALL-REFRIGERATORS WITH AUTOMATIC DEFROST

The “better” alternative to many compact refrigerator-freezers

FFAR2L

FFAR2L open (shown LHD)

FFAR2LCSS

FFAR2LCSS open

Many customers who purchase compact refrigerators would prefer an all-refrigerator, as they offer the convenience of fully automatic defrost, and a larger capacity in the same cabinet. At SUMMIT, we go one step further and add a front lock to all of our choices, from “cube” sized up to counter-height. And, with more choices than the competition we’re sure to have the model you need. Match one up with a SUMMIT all-freezer, and have the perfect combination of products. SUMMIT all-refrigerators with locks are ideal for hotels, offices, medical offices and for convenient storage of small items wherever needed. (For storage of vaccines, medicine or pharmaceuticals see our special line of medical refrigerators at www.summitmedicalrefrigerators.com or request our medical refrigerator catalog).

FF29BL

COMPACT FRONT OPENING ALL FREEZERS

SUMMIT has one of the largest lines of compact front-opening freezers anywhere, from our "cube" sized FS20L, right up to our 5 cu.ft. FS60. (See Page 39 for models up to 25 cu.ft.!). With features such as reversible doors or front locks (selected models) these freezers are energy misers yet offer convenient storage for frozen goods. Pair our FS20L, FS40L, FS62 or FS62L with matching SUMMIT all-refrigerators for a perfect side by side set.

FS20L	The FS20L is the ideal counter top freezer. It's dimensions are suitable to fit almost anywhere. It operates at -20°C, ideal for many vaccines and long term food storage. The front lock and reversible door and interior shelf offer all the features and convenience customers look for. It makes a perfect matched set with Summit FFAR2L all refrigerator. Manual defrost.
FS20LCSS	Same as above with fully wrapped stainless steel cabinet and door. Reversible door. Stainless steel "L" handle.
FS62	The FS62 is a -25°C (-13°F) freezer which is perfect for keeping your ice cream frozen and for long term food storage. Three see-thru baskets provide convenient and easily identifiable storage. The oversized compressor makes it ideal for medical, laboratory and commercial uses. Optional stainless steel doors can provide a stylish decor for any apartment setting. 3 inch foamed in insulation, slide out drawers and an adjustable thermostat are energy saving features. Reversible door, flat door liner and power indicator lights are standard.
FS62L	Same as FS62 with a front mounted lock. Reversible door.
FS60	SUMMIT FS-60 is one of the few full 5.0 cu.ft. counter-height freezers that can meet stringent DOE energy standards, yet it has convenient open shelves and door shelves. Manual defrost, RHD, and made in North America.
FS60L	Same as FS60 with side mounted lock.
FS60SSVH	FS60 with wrapped stainless steel door and 16" pro vertical stainless steel handle.
FS40L	Counter-height, easy to fit, front opening freezer with front lock and reversible door. 4 removable baskets save energy and provide convenience. White finish, manual defrost.

SILENT HOTEL MINIBARS AND MICROWAVE OVENS IDEAL PRODUCTS FOR THE HOSPITALITY INDUSTRY

SUMMIT's silent minibars are all auto-defrost, all-refrigerators with a front lock. The dimensions are ideal for most counters, cabinets and armoires with proper ventilation. Their charcoal gray finish blends with most interiors. The completely silent absorption system is ideal for hotels, cruise ships, conference rooms, offices and bedrooms. The reversible door provides flexibility for any interior design and the front lock provides additional security. Well designed shelving maximizes product selection, display and convenience.

MB24L	Our smallest minibar (15 3/4 W x 18 D) is ideal, for most counters, cabinets and armoires with proper ventilation. All above features.
MB34L	The MB34L provides all the benefits of the MB24L but with a larger capacity. The door storage allows for large beer bottles as well as miniature liquor bottles. The interior shelves hold cans and small bottles easily.
MB44L	The MB44L has the same refrigeration section as the MB34L along with a dry goods section (non-refrigerated) for added storage. The glass see-thru window is ideal for hotels to increase impulse purchase. Snacks sunglasses and other sundry items are conveniently displayed in this section. The MB44L comes with the same key operated front lock as the MB34L.

SM900W

SM1100B

SM1100W

SM850

SM850	A powerful, 800 WATT compact microwave. Its brushed stainless steel exterior and smooth stainless steel interior provides durability and ease of cleaning. The thirty minute rotary timer is easy to use. The SCM850 also features variable power settings and a glass, removable turntable. 0.8 cu.ft.
SM900W	A white, powder coated, metal exterior compact microwave oven. It has .7 cu.ft. capacity and 700 watts of power. The large digital keypad features variable power and one touch auto cook functions such as defrosting. This model also comes with a removable, glass turntable. The SM900W comes with child lock protection and end of cycle signalling for added safety.
SM900BL	Same as above in black finish
SM1100W	Summit's mid-size microwave oven. The white metal exterior and the molded plaster interior are easy to clean. It operates at powerful 1000 watts. The larger digital keypad features variable power and a host of one touch cooking functions, such as defrosting and popcorn. This model also includes a glass, removable turntable for even cooking throughout. The SM1100W comes with child lock protection and end-of-cycle signalling for added safety.

C-108

WASHERS, DRYERS, COMBO-WASHER-DRYER (IN ONE UNIT) AND DISHWASHERS

For compact laundry, and 24 inch wide under-counter laundry and dishwashers, your source for innovative and ideally sized models is SUMMIT. For the smaller kitchen, apartment, or hotel suite we offer a portable washer and a 110V electric dryer. For convenience we offer a front-load pair, with an Energy Star washer (designed and built in Europe) and a matching electric (220V) dryer; and for the ultimate space-savings, a combination washer-dryer in one unit. Our European dishwasher is one of the quietest on the market, and has a full stainless steel tub, thoughtful, deluxe interior, and is fully featured with 12 place setting capacity, adjustable top rack, removable silverware tray, triple filter and much more.

SPW1200	Portable top loading washing machine, convertible for a standard installation or one hose connection to a sink. Fully featured, full agitator, four cycles, 3 water temperature settings, adjustable water level settings, fabric and bleach dispenser, lint filters, fully digital controls, and 11 pound capacity.
SPD1200	110 Volt electric dryer, plugs into standard outlet. Two temperature options, three cycles and end of cycle buzzer. White finish. 11 lb capacity.
SPW1102	24 inch wide, front loading ENERGY STAR washer, with 12 pound capacity, 1000 rpm, European designed and built for SUMMIT, stainless steel interior, superior cleaning but gentler on clothes. Uses less water and detergent than most washers. Use under-counter or stack with matching dryer, SPDE1112
SPDE1112	Matching dryer to SPW1102. 220 Volt, 60 cycle. Fully featured with 3 heat settings, and timer or auto-dry. Full stainless steel drum. Reversible door swing. Can be stacked on top of SPW1102 with included stacking legs (no kit needed).
SPWD1160C	Combination washer in dryer in one unit. Single cord 110V operation with stainless steel interior tub, 11 pound capacity, front loading convenience, and all features. Just put your clothes in, set the controls and come home to clean, dry clothes.
DW2432W	Energy Star, European built-dishwasher with ultra-quiet stainless steel interior, adjustable top rack, 12 place setting capacity, 4 program, 4 wash temperatures, smart-fold shelves allow extra cup capacity, 3 way filter system, 5 level wash system for better cleaning.
DW2432SS	Same as above with stainless steel door.
SPW1102ADA	This front load ENERGY STAR washing machine is ADA compliant (32") with the same specifications as SPW1102
SPDE1112ADA	ADA compliant height of 32 inches with the same specifications as SPDE1112.
DW2432ADA	ADA compliant (32" high) with the same specifications as DW2432.

MICROWAVE-REFRIGERATOR COMBINATIONS

One size fits all is fine for some products, but discerning customers want models to fit their exact needs. At SUMMIT, we build one plug refrigerator-microwave combinations to your specifications. Choose any refrigerator in our product line – add any microwave oven – and we'll build it for you- with or without our power allocator box that provides a single cord and limits overall power to 15 amps. Our power allocator even has an outlet for a coffee maker.

SUMMIT MRF series are refrigerator-microwave combinations that ship complete in one box and have a single plug. All models have an allocator to limit overall power consumption; most have reversible doors and locking brackets. The model number indicates the SUMMIT refrigerator used and can be built to customers' specifications.

MRF35 AND MRF1110 UTILIZE ENERGY STAR LISTED REFRIGERATORS

The table below represents some of our most popular refrigerator-microwave combinations: but call our sales experts to design your own models. All models operate with one plug 15 amp maximum use.

MRF35	Two-door Energy Star compact refrigerator CP35 with zero degree freezer, in white with a compact microwave oven, SUMMIT model SM900.
MRF35B	Same as the MRF35 with a black finish.
MRF41	This microwave/refrigerator combination uses the FF41 fully automatic defrost refrigerator-freezer with a compact microwave oven.
MRF43	Same as above with a black finish.
MRF43SSTB	Same as above with stainless steel wrapped door with towel bar handle. Includes a black SM900BL.
MRF66	Mid-size microwave oven with cycle defrost 5.3 cu.ft. refrigerator-freezer, Model CT66 in white. Also available in black (MRF66B).
MRF67SSTB	Model CT67 with a stainless steel wrapped door with towel bar handle. Includes a stainless steel microwave SCM850.
MRF67CSS	As above with fully stainless steel wrapped CT67CSS.
MRF70	Large capacity refrigerator freezer, CT70, with our mid sized microwave, SM1100W.
MRF40	Manual defrost refrigerator freezer, CM40, with our compact microwave, SM1100W ,
MRF28L	FF28L all-refrigerator with auto defrost and front lock with a compact microwave oven.
MRF29L	Same as above in black finish.
MRF2L	Compact microwave oven with automatic defrost all-refrigerator FFAR2L. White with front lock.
MRF89	Compact microwave oven with cycle defrost refrigerator CP89. White
MRF97	Compact microwave oven with cycle defrost refrigerator CP97. White
MRF133	Mid-sized microwave with cycle defrost, large capacity refrigerator-freezer CP133.
MRF71	Mid-sized frost-free refrigerator combined with Summit touchpad microwave oven. White.
MRF874	Mid-sized microwave oven with frost free refrigerator-freezer FF874.
MRF882	Mid-sized microwave oven with frost free refrigerator-freezer FF882.
MRF1110	Energy Star frost-free FF1110 paired with midsize microwave oven SM1100.

COMPACT REFRIGERATOR-FREEZERS

S19L

CM45L

CM40

CM45L

S19

Summit has been manufacturing compact refrigerators longer than almost anyone, since 1969. Today we continue to offer quality products with the features our customers demand, including locks on many models. For a wide variety of compact all-refrigerators or all freezers; see pages 22 and 23.

CM45L	Manual defrost refrigerator-freezer with reversible door, front lock and door storage.
CM40	Energy efficient refrigerator-freezer with convenient table top, reversible door and adjustable thermostat. Manual defrost.
CM39	Refrigerator-freezer with reversible door, adjustable wire shelves, door storage and adjustable thermostat.
S19R	Value priced cube sized compact refrigerator-freezer. Manual defrost, reversible door, adjustable thermostat and door storage.
S19L	Same as above with a front mounted lock.

PARTY COOLERS AND CARTS

PCC50

CC48

Now you can entertain in style, with a choice of convenient, practical and elegant refrigerated coolers and carts from SUMMIT. Our round party coolers have a unique "blue ice" wall liner. Simply add your contents, plug in, and cool overnight. Your contents will stay cold all day without power or ice, or if needed, operate plugged in all the time. Casters for portability are standard. Party cooler PCC50 includes two wooden serving shelves and a wire rack for large bottles. Can cooler CC48 has a large capacity, and is approved for commercial or household use.

FC07

RPC07 (includes FC07)

Now, you can serve chilled beverages anywhere without the mess and fuss of ice cubes. With SUMMIT's RPC07 and FC07 you can add extra refrigerator capacity, and extra storage capacity wherever needed. SUMMIT party cart RPC07 is a completely stainless steel cart shipped fully assembled (except handles) and includes a chest style glass lid refrigerator (Model FC07) with a stainless steel exterior. The stainless steel cart features casters and two stainless steel handles to make it portable and easily maneuverable. The fully stainless steel cabinet can hold cases of beverages, or large two liter bottles.

Model	Capacity	Height	Width	Depth	Defrost	Door Swing	Door Finish	Cabinet Finish

FC07	1.8 cu.ft.	26 1/2"	21"	16"	Manual	Lift up	Clear	St. Steel

PCC50	Round all-refrigerator with party accents, ideal for backyard entertainment. Includes a chrome rack, two wooden trays and a hanging basket for large bottles.
CC48	Same as above but without the party accents and available in white for custom logos. Unique 'ice bank' system holds chilled beverages cold for hours without electricity.
RPC07	Our RPC07 refreshment cart is an affordable, deluxe all stainless steel cart that includes a unique, chest refrigerator (Model FC07) with two glass lids. Thoughtfully designed with an interior cabinet (with shelf), a side rail for tall bottles, a handy work-top, and installed casters for portability. Ships fully assembled. All stainless steel handles, and interior surfaces.
FC07	A mobile solution to keep beverages refrigerated anywhere needed. Suitable for can and bottled beverages, it holds all bottle sizes including two or three liter bottles, and includes baskets for other ingredients for the perfect drink. Included are two wire removable baskets suitable for holding smaller items. Towel bar handles on the tempered glass lids are included. The exterior is fully stainless steel. The hammered aluminum interior features a bottom drain for easy use and maintenance. Manual defrost. Casters are included (not needed when installed in SUMMIT Party Cart RPC07).

COMPACT CHEST FREEZERS

Summit offers our customers a wide variety of compact chest freezers: including household models - commercial models - and low temperature scientific models for certain vaccines and food products. We also offer a number of finish options: models in white, one model in platinum and one in stainless steel. Summit freezers on this page are all manufactured in either Europe or North America, and all have a basket and drain included, while several have standard locks.

SUMMIT COLD CAVERN™ BEER FROSTERS AND PUB CELLARS™ ALE AND RED WINE COOLERS

**FORGET WHAT YOU KNOW ABOUT COLD BEER!
SUMMIT HAS JUST CHANGED EVERYTHING!**

With the Summit Cold Cavern™ you get beer so cold the bottle literally frosts over when removed from the unit! How cold is it? The Cold Cavern™ stores your beer at a frigid 24°F, just before freezing, in order to give you the coldest crispest beer possible. Enjoy that frosted beer experience in your home you've enjoyed at resorts, restaurants and lounges. Designed for aluminum bottles, taste tests show the vast majority of beer drinkers prefer beer colder than possible in your household refrigerator.

FULL SIZE HOUSEHOLD BEER DISPENSERS

SUMMIT beer dispensers have been setting the industry standard for two decades, with proven reliability, full size capacity in every model, and models for freestanding, built-in, outdoor and commercial use.

The backbone of our freestanding beer dispenser line is model **SBC500**, our "original" beer dispenser, and still a perennial best seller with tens of thousands sold. Manufactured in North America, this unit is full sized to hold half, quarter or pony kegs and ships with all accessories, including sturdy casters, a 5 lb. carbon dioxide cylinder and regulator, draft tower, Sankey American tap, wooden slats for changing kegs, top rail, plastic drip tray, (a stainless steel drip tray is optional), and a cleaning kit. An adjustable thermostat is mounted on the rear of the unit. All SBC500 models are full sized, to hold half, quarter or two mini-kegs. All accessories are made in the USA, and meet NSF standards.

SUMMIT **SBC490** is full size beer dispenser we offer in a variety of configurations to meet your customers' needs. As a base unit, it is supplied with only casters, a top rail, drip tray, stainless steel floor guard for changing kegs, and shelves to convert into a beverage refrigerator. This lower priced version allows individuals to purchase their own custom dispensing equipment for the unit. Other models are supplied as shown below: Optional KIT490 includes a 5 lb. carbon dioxide cylinder, regulator, Sankey American tap, draft tower and cleaning kit. SBC-490 plus KIT490 provides a complete ready-to-use beer dispenser (just add beer). European taps are available for all units.

SBC500SSPST

Top of SBC500SSPST with seamless stainless steel top.

SBC500B	Freestanding beer cooler, "the original", in black finish, full size to hold, half, quarter or mini kegs – complete with all accessories.
SBC500SSPST	Same as above in stainless steel finish. Door and top are fully stainless steel with a fingerprint-free finish, and the cabinet sides are matching platinum finish. Complete with all accessories
SBC490NK	Freestanding SBC490, full size beer dispenser, accepts half, quarter and mini kegs, fully automatic defrost with shelves included to convert to an all-refrigerator. This model does not include an accessory kit. Ships with a top rail, stainless steel floor and drip tray. Adjustable thermostat.
SBC490 with kit	Same as above with a single tap complete accessory kit, including a 5 lb. CO2 tank and regulator, draft arm, Sankey American tap, connection hardware and a cleaning kit. Adjustable thermostat.
Suffix	Options for SBC500 and SBC490 models
ST	Add a 304 grade stainless steel top to SBC500 or any SBC490. (Must be factory installed).
SSTB	Add a wrapped stainless steel door with 12 inch pro stainless steel handle to SBC500 or any SBC490.
FR	Add a frame to accept custom panels to any SBC490 model.
TWIN KIT	Substitute a twin tap kit (twin Sankey American taps, larger draft tower and internal manifolds and tubing to connect two taps to any SBC490.
TRIPLE KIT	Same as to above for triple taps. (SBC490 models only).

C-108

FULL SIZED ALL-REFRIGERATORS (NO FREEZER COMPARTMENT)

In full sized all-refrigerators, Summit has the product line to fit your space, budget and cooling needs. Two models only 24 inches wide and deep offer full size capacity in a small footprint, and two models 30 inches wide offer a generous 18 cu.ft. of capacity. Both smaller and larger models are presented in other sections of this catalog. All models are automatic defrost.

FFAR10	All-refrigerator, with easy-to-fit-dimensions, internal fan for even cooling, over 12 cu.ft. of shelf area (shelves are adjustable), reversible door (on base model), interior light and convenient door storage. Energy Star Listed.
FFAR10SSTB	Same as above with wrapped stainless steel door and pro stainless steel handle. Order RHD or LHD
VKS670	Two-door convenience with a single refrigerated zone inside. Static cooling system (no fans) and reversible doors.
R18	18 cu.ft. of capacity, static cooling system, reversible doors, large interior shelves, door storage and interior light.
R18FF	17.7 cu.ft., fan forced interior cooling with frost-free design, reversible door, large interior adjustable shelves and door storage

SUMMIT FFAR10 is a versatile easy-to-fit model of all-refrigerator with 4 full adjustable shelves, one fixed shelf, and two full and 4 half door shelves for a huge shelf area. All FFAR10 model have interior air circulation fans and are capable of maintaining 2-7°C (36-45°F). Also available in our "MED" series or "LAB" series for use in medical or laboratory facilities with upgraded features (choice of locks, hospital grade plugs, and alarms with external temperature readouts). Energy Star qualified. Optional wrapped stainless steel door with pro stainless steel handle.

FFAR10 (above left) / FFAR10SSTB (above right)

VKS670

Model VKS670 has two doors for convenience and energy efficiency. Fully adjustable shelves and a static (no frost) cooling system.

ONLY SUMMIT OFFERS ALL SIZES OF ALL-REFRIGERATORS

- "Cube" sized
- Compact
- Counter-height
- Built-in under-counter
- Full size
- Large capacity commercial units
- Chest style
- Frost-free

R-18 / R-18FF

For full-sized affordable all-refrigerators, Summit offers the choice of static cooling (no fans) in our R-18 with automatic defrost; or frost-free fan cooling in the R-18FF. Both offer door storage, adjustable shelves, an interior light and reversible doors

FC-7	Commercially approved, (U.L.-S listed - meets NSF-7).							
MED	Special model for medical use includes lock, alarms, external temperature display and hospital grade plug.							

COMPACT AND FULL SIZE WINE CELLARS

SUMMIT wine cellars offer a significant difference from wine cellars found in big box stores. Most of ours meet tough commercial standards, and are suitable for restaurant, bar, wine retailer or commercial use (UL-S or ETL-S or NSF meet ANSI-NSF standard 7). Our **SWC1775**, **SWC1735**, **SCR310L-WC**, and **SWC6G** series are all commercially approved, while our **SWC1545** and **SWC520** are designed and approved for household use. Yet all are beautifully styled and featured to look great in your home or wine cellar.

SWC6GBL

SWC6GWL

SWC520L

SCR310LWC

SWC1545

SUMMIT under-counter wine cellars set the quality standard. Ours are fully auto-defrost, and have a cold wall design (the evaporator is hidden behind the rear wall). Our base model SWC-6G (in white or black) is with scalloped or flat chrome shelves have ETL-Sanitary (commercial) approval (comply with ANSI-NSF standard 7). All models are complete with a factory lock, and all models either have reversible doors or have optional stainless steel handles and should be ordered with left hand or right hand door swing. Solid door models are available (see page 9). Models with factory frames accommodate your custom panels and custom handles with our innovative stainless steel handle mounting bracket.

SWC1775

SWC1735C

Models **SWC1775** (two-doors) and **SWC1735C** (one curved glass door) are built in Denmark for SUMMIT, and are true European wine preservation cabinets, designed for ideal storage and preservation of wine. They feature wooden shelves, reversible doors, an interior light, tinted doors, an air filtration system, a vibration dampening system and are designed to preserve wine within a range of 43 to 61°F. Both units are fully auto-defrost with dark brown interiors and are beautifully appointed to enhance the wine experience. UL and UL Sanitation approved for home or commercial use.

Models on this page except SWC520 and SWC1545 meet standards for commercial use, and carry ETL-Sanitation, UL-Sanitation or NSF listings (comply with NSF Standard 7).

SWC1775	SWC1775 is a true European wine preservation system, designed to provide long-term storage of white and red wine prior to chilling or warming to ideal serving temperatures. Fully featured with two tinted reversible doors, dark brown interior, wooden shelves (optional wire shelves for heavy commercial use are available), fluorescent lighted sign (with an on-off switch), adjustable thermostat, automatic defrost, a vibration dampening system and an air filtering system. Operates at 43 to 61 degrees F. Made in Europe for SUMMIT.
SWC1735C	SWC1735C is an elegant European wine preservation system, styled for home or commercial use with a curved, reversible door, full aluminum handle, adjustable thermostat, hidden lighting, wooden shelves, and air filtration system and automatic defrost. Made in Europe.
SWC1545	Full size, counter depth wine cellar with dual zones and slide-out wooden shelves. Two digital temperature displays and double pane tempered frameless glass door. Accommodates up to 80 bottles.
SWC6GBL	SWC6GBL is a counter height, European built wine cellar with standard scalloped chrome wine shelves. Automatic defrost featuring SUMMIT's unique hidden evaporator for a clean seamless interior liner. Reversible door with a lock located in the top center. All models feature a glass door with aluminum trim, adjustable thermostat, preset for white wine storage (36 to 48 degrees F), and an interior light on a rocker switch. For built-in and other customized options, including cabinet, door and handle choices see page 7.
SWC6GWL	Same as above with a glass door with white door trim. Includes flat chrome shelves, but other shelf styles are optional. White cabinet and kickplate.
SWC520L	SWC520L is a 24 inch wide, counter-height, wine cellar with a black cabinet and inner liner, digital controls and digital temperature readout, seven chrome wine shelves, reversible door, standard door lock and double pane tempered glass door. Depending on stacking, can hold from 42 to 50 bottles.
SCR310LWC	SCR310LWC is a compact, commercially approved, glass door wine cellar in black that holds 24 bottles of wine. The glass door has an included lock, black frame and is fully reversible. Ideal for above counter use.
SCR10LCS-WC	Same as above with seamless stainless steel cabinet.

LARGE CAPACITY FULL SIZED ALL REFRIGERATORS

SCUR20 closed

SCUR20 interior

SCUR18 interior

SUMMIT large capacity frost-free all-refrigerators are available in 3 sizes, 18, 20 and 25 cu.ft. All are approved for food service use (UL and UL-Sanitation approved – equal to NSF-7), and all include a precision digital thermostat to allow users to set the precise interior temperature. All feature forced air frost-free cooling.

We finish these models with many useful features our customers have requested: a full stainless steel professional handle, a lock, 6 inch sturdy casters (2 with brakes), a precision digital thermostat and a reinforced base for durability. All units ship completely assembled, including the casters (6 inch legs or seismic legs are options to replace casters).

SCUR18	Front-opening all-refrigerator approved for food service use with fan forced frost-free operation. Digital thermostat, and stainless steel handle. Large casters (two with brakes), 18 cu.ft. of capacity, lock, adjustable shelves, door shelves, one piece seamless interior liner, and interior light.
SCUR20	Same as above with 20 cu.ft. of capacity

COMMERCIAL ICE CREAM FREEZERS

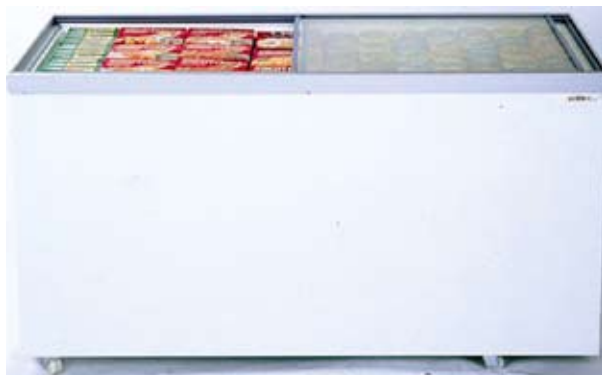

A word about commercial freezers. SUMMIT commercial freezers are built to commercial standards, with larger compressors, more cooling coils, and deeper interiors. Please don't compare us to some competitors who start with household chest freezers and add glass lids.

Our long-running successful line of commercial sliding glass lid chest freezers offers outstanding value, but with a long list of standard features: including a lock, drain, casters, 19 7/8" deep interior (for two tubs of ice cream back-to-back), aluminum frames with reinforced corners, plastic coated runners for easy gliding and durable aluminum interiors. Large fan cooled compressors for better performance in hot and humid conditions. Optional baskets are available. U.L. and U.L. Sanitation approved.

SCF630	29 inches wide with a capacity of 6.6 cu.ft.
SCF940	36 inches wide with a capacity of 9.4 cu.ft.
SCF1310	50 inches wide with a capacity of 13.6 cu.ft.
SCF1710	61 1/2 inches wide with a capacity of 17.4 cu.ft.

FEATURES:

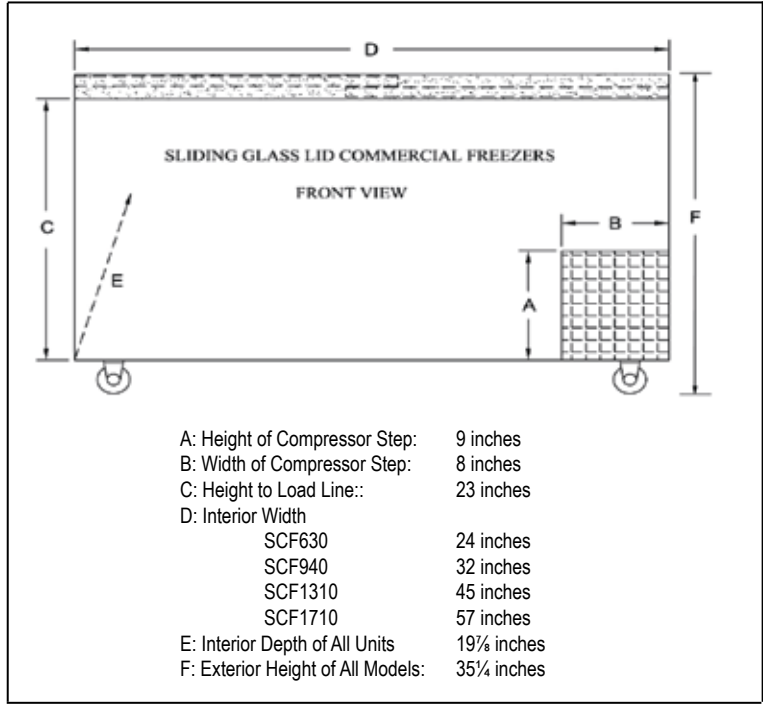

- Aluminum interiors
- High load lines
- Deep interiors
- Safety glass
- Sleek aluminum frames for more visibility
- Reinforced corners for durability
- Strong, tempered safety glass in all lids
- Interiors hold two ice cream tubs back to back
- Strong casters and drain included in all models
- Lock is standard in all models
- U.L. and U.L. Sanitary Approval (meets ANSI-NSF-7)

FREEZER CARTS, DIPPING AND STORAGE FREEZERS

SERVING ICE-CREAM OR GELATO OR ITALIAN ICES? NO PROBLEM!

Summit offers ice cream carts, dipping cabinets and storage freezers with a choice of options. Select your choice of baskets, lids, sneeze guards, and temperatures for the perfect serving solution.

SUMMIT offers a huge choice of options to deliver the perfect serving solution for ice-cream, sorbet, gelato, water-ice or whatever your frozen product is. We offer the following:

SERVING FREEZERS

Combine a SUMMIT freezer, a lighted sneeze guard, and interior basket arrangement for one of the best values in the industry in serving freezers. Combine with a digital thermostat to offer products at the ideal temperature, and make serving or storing products a snap.

Flip Lids

DIGITAL THERMOSTAT

We can provide a freezer with a precision digital thermostat to set your freezer to the ideal serving temperature. We use only the highest quality thermostats, for the longest life and most accurate results. Easy to set, and lock into the range set by the user. Perfect for ice cream or frozen products that need to be stored or served colder or warmer than freezer's usual setting.

IC940

SERVING CARTS

SUMMIT CARTS (for flat top freezers only) are one of the industry's best values. They include oversized six inch casters (two with brakes), a professional stainless steel handle; a sturdy all metal frame, a slot to mount an umbrella, and flip lids for convenience and temperature retention. Optional holding plates are available. Carts are available for our SCF630, SCF940 or SCF1310 freezers.

SCF1310 with lighted sneeze guard

Gelato Pan holder basket

Ice Cream Tub holder Basket

INTERIOR BASKETS

SUMMIT offers four types of freezer baskets to fit any freezer we sell (and many other brands). Choose our tub holder baskets (with a plastic cover) designed to hold two 10 inch diameter tubs back to back: gelato pan holders designed to hold 3 rectangular gelato pans (11" X 5 1/4") or our novelty baskets with dividers for either flat or angled freezers.

DIPPING CABINETS

SUMMIT offers a choice of polycarbonate or glass sneeze guards for our freezers, all with UL Sanitation (equal to NSF) approval. Sneeze guards are available for all flat top freezers in our line. Unlighted or lighted (Lighted models plug into a receptacle in the freezer and must be ordered at the same time as the freezer.) models are available. Sneeze-guards are built exclusively of stainless steel supports and hardware with glass or polycarbonate surfaces for the ultimate in durability, quality, convenience and value. See web site for available combinations. Sizes from 29 to 61 inches.

Freezers with rear shelf

REAR SHELF

Freezers with a rear shelf. Available on models SCF1092S, SCF1492S, SC1692S. Shelf is 18 inches deep and width of freezer

STAR55

EIS55

SUMMIT offers a large selection of full size frost-free commercially approved freezers. Three models with solid doors (18, 20 or 25 cu.ft.) offer full stainless steel professional handles, standard 6 inch casters, (two with brakes), and a precision digital thermostat for setting the exact interior operating temperature. These models all feature true frost-free design with internal fans for cooling and air circulation. They feature U.L. and U.L. Sanitation approval (equal to NSF-7). Standard features include interior lights, convenient door storage, adjustable shelves, and a sturdy enhanced base to stand up to years of use. These units ship fully assembled, including the casters and handle. All units have RHD door swings.

Our two full sized, commercial glass door display freezers are made for SUMMIT by IARP in Italy, and are two of the most attractive freezers in the industry. The EIS55 features a flat full-length glass door, and the STAR55 has a curved full length door. Both have fully illuminated interiors, fully adjustable shelves, frost-free forced air cooling, and front-mounted controls.

FEATURES OF ALL MODELS

- **Commercially approved**
- **Adjustable shelves**
- **Digital temperature controls**
- **6 inch casters on 'SCUF' series**
- **Forced air ventilation**
- **Frost-free operation**
- **Stainless steel oversized handle on 'SCUF' series**
- **External display of interior temperature**
- **UL Approved and UL Sanitation (equal to NSF) approved**
- **Interior lights**
- **Front mounted controls**

SUMMIT 'SCUF' SOLID DOOR STORAGE FREEZERS ARE A PERFECT MATCHED SET WITH OUR 'SCUR' SERIES SOLID DOOR STORAGE REFRIGERATORS

EIS55	Frost-free display freezer is fully equipped with a clear glass door for easy viewing of freezer contents, adjustable shelves and thermostat.
STAR55	Commercial frost-free freezer with a curved glass door, adjustable wire shelves and adjustable thermostat. Standard fluorescent light.
SCUF18	SUMMIT frost-free upright storage freezer with locking casters and digital thermostat. Fan forced air-circulation.
SCUF20	Upright storage freezer with locking casters, digital thermostat and capacity of 20 cu.ft. Fan forced frost-free operation.
SCUF25	Large capacity (24.5 cu.ft.) upright storage freezer - features stainless steel handle, digital thermostat and frost-free operation.

ICE CUBE MERCHANDISERS

SUMMIT's line of ice cube merchandisers feature cold wall construction; value pricing, large capacity, and include a rack for protecting the floor and facilitating loading and unloading. Made in North America. This line features the industry's two most popular sizes in an indoor and outdoor version.

SCF4803G (right)
Glass door models offer product display, solid door models are also available.

SCF4802	Solid door, hasp for padlock, bottom rack, cold wall design, holds 110 bags.
SCF6502	Same features as above with 165 bag capacity.
SCF4803G	Glass door indoor version of the SCF4802
SCF6503G	Glass door version for indoor use of the SCF6502.

C-108

FROST FREE CHEST REFRIGERATORS AND FREEZERS

**EXCLUSIVE FAN COOLED INTERIORS FOR EVEN TEMPERATURE PERFORMANCE
NO DEFROSTING EVER- AND A CHOICE OF 6 SIZES. ALL HAVE
COMMERCIAL APPROVAL (U.L. AND U.L.-S) FOR FOODSERVICE OR MEDICAL USE.**

SUMMIT SCFF and SCFR series chest freezers bring the convenience of frost-free operation to a product category normally available in manual defrost only. A large choice of sizes, all with powerful cooling systems and fan forced interior cooling for even temperature performance. Storage baskets included, and all have one piece seamless interior liners. Counter-balanced lids, recessed handle, and foamed lids for energy savings. Stainless steel corner guards for high traffic areas are standard. Made in the U.S.A.

FROST FREE CHEST REFRIGERATORS	
SCFR50	5.5 cu.ft. capacity frost-free all-refrigerator
SCFR70	8.5 cu.ft. capacity frost-free all-refrigerator.
SCFR120	13.5 cu.ft. capacity frost-free all-refrigerator with front lock
SCFR150	15.5 cu.ft. capacity frost-free all-refrigerator with front lock
SCFR220	21 cu.ft. capacity frost-free all-refrigerator with front lock
SCFR250	23.5 cu.ft. capacity frost-free all-refrigerator with front lock
MED OPTION	Add a digital thermostat, hospital grade cord, and NIST traceable thermometer with alarm to any model above (add suffix "MED" and add 4 inches to width). All "MED" models will have a front lock.

FROST FREE CHEST FREEZERS	
SCFF50	5.5 cu.ft. capacity frost-free freezer.
SCFF70	8.5 cu.ft. capacity frost-free freezer.
SCFF120	13.5 cu.ft. capacity frost-free freezer with front lock
SCFF150	15.5 cu.ft. capacity frost-free freezer with front lock.
SCFF220	21 cu.ft. capacity frost-free freezer with front lock.
SCFF250	23.5 cu.ft. capacity frost-free freezer with front lock.
MED OPTION	Add a digital thermostat, hospital grade cord, stainless steel corner guards, and exterior NIST thermometer to any model above (add suffix "MED" and add 4 inches to width). All "MED" models will have a front lock.

Why settle for a manual defrost chest freezer, when SUMMIT makes it so easy to go **frost-free** with chest freezers, and matching **frost-free** chest refrigerators in 6 sizes; from an easy-to-fit 5.5 cu.ft. all the way up to 24 cubic feet.

All models utilize a rugged commercial, NSF approved, cooling system; made in the USA and designed for years of demanding service. All are U.L. and U.L. Sanitation (equal to NSF-7) listed for commercial, food service or any other use.

Eliminate messy, expensive and inconvenient defrosting forever!

Special Applications: The cooling used system on our SCFF / SCFR series is capable of a wide range of temperature settings when paired with an optional digital thermostat and a variety of coolants. For low temperature, or exacting performance needs, call our sales department. By special order we can accommodate ranges of -35°C (-31°F) up to 10° C (50° F)

SUMMIT has one of the largest selections of beverage merchandisers when your space is tight, yet maximum product storage is needed. Our products are counter depth or less, yet have dimensions consistent with the most common cutouts needed. All products are commercially approved, fully featured, but sensibly priced to offer more storage in less space.

SUMMIT SCR1500 is our newest beverage merchandiser, fully frost-free and of providing plenty of capacity. Fully cantilevered adjustable shelves, and a full fluorescent light, U.L. and U.L. Sanitation approvals; 27" wide and 25" deep for outstanding capacity. A lock is standard. Internal fan (with on/off switch), adjustable thermostat and tropicalized for plenty of reserve capacity in hot ambient temperatures.

SCR1300 has been a standard in the SUMMIT line for two decades. Large product display (all the way to the floor), yet easy to fit anywhere with its 24 inch width and depth. Easy and quick slide out shelf adjustment with no clips to move, and fully featured with a full fluorescent light with on/off switch; standard lock, adjustable thermostat, internal fan, solid aluminum door frame, double pane heat reflective glass, U.L. and U.L. Sanitation approved (meets ANSI-NSF 7) and a reversible door. 4 slide-out shelves.

SUMMIT SCR1150 has all the same features as the SCR1300, but in a height of 61 inches. Four slide out adjustable shelves.

SCR1500	Full size glass door beverage merchandiser, but only 25 inches deep to fit better in many spaces.
SCR1300	24 inch wide full height beverage merchandiser with shelves all the way to the floor for more product display. A reversible door and lock are standard.
SCR1150	Similar to SCR1300, but only 61 inches high. Shelves all the way to the floor, reversible door and lock.
SCR700	36 inch wide back-bar glass door unit with two sliding glass doors; fully illuminated interior, fan cooled interior and fully adjustable shelves.
SCR7012D	Same as above with two swing glass doors, featuring stainless steel trim and pro stainless steel handle.
BBS1	Commercial drink dispenser, with single 4 gallon tank, stainless steel exterior and gentle paddle mixing.
BBS2	Commercial drink dispenser with dual 4 gallon tanks. Gentle paddle mixers won't break down juice. Stainless steel exterior.

BBS2

BBS1

SUMMIT COMMERCIAL refrigerated juice dispensers offer the outstanding performance durability, appearance, quality and value you've come to expect from SUMMIT. The cabinet is 304 grade stainless steel throughout, for durability, easy cleaning and elegance. Fully featured with clear polycarbonate tanks; a paddle agitation system suitable for high and low density beverages; a high performance compressor and a commercial cooling system. These units are easily disassembled for cleaning and reassembly. SUMMIT beverage dispensers are perfect for all kinds of beverages with their gentle paddle agitation system. UL and UL-S listed.

All models on this page meet standards for commercial use and carry ETL-Sanitation, UL-Sanitation or NSF listing (comply with NSF Standard 7)

SCR310L

Model SCR-310L is a compact commercial beverage center ideal for using above counters or bars. This glass door unit has U.L. and NSF approval, cantilevered adjustable shelves, a front lock, automatic defrost and an adjustable thermostat. Only 24 1/2 inches high, 18 1/2 inches wide and 18 inches deep. Optional wine shelves are available.

When you need compact, commercial storage refrigerators, think SUMMIT. We have an incredible selection of choices for your compact needs. Basic models FFAR2L7, and SCR310L both offer a wide variety of finish options, affordable prices, and automatic defrost in easy-to fit sizes. Both have the option of luxurious fully wrapped stainless steel cabinets for enhanced appearance, long life, and functionality. All models include a front lock, and reversible doors.

SCR310L	SUMMIT SCR310L is an NSF listed compact, glass-door beverage merchandiser with a front lock, reversible door, automatic defrost, adjustable shelves and adjustable thermostat. SCR310L is recommended for light commercial use. For higher volume use, see model SCR310LDTF, below.
SCR310LCSS	Same as above, with full stainless steel cabinet.
SCR310LDTF	SCR310L with the addition of a digital thermostat and internal fan for enhanced cooling and more stable temperature performance.
SCR310LDTFCSS	Same as above with a fully stainless steel cabinet for elegance, durability and easy cleaning.
SCR310LWC	SCR310L with NSF approved wine shelves for storage of wine. Recommended for white wine. All the same features as the base model SCR310L. For red wine storage, add option 'DT' (digital thermostat) for an exact temperature setting.
SCR310LWCCSS	Same as above with a fully stainless steel cabinet for elegance, durability and easy cleaning.
FFAR2L7	Compact 'cube' sized all-refrigerator, with ETL-Sanitation approval (equal to NSF-7) for foodservice use. Automatic defrost, front door lock and reversible door. Model FFAR2L matches all-freezer FS20L for a perfect side by side set.
FFAR2L7CSS	Same as above with a full stainless steel cabinet for elegance, durability and easy cleaning.
FFAR2LGL7	FFAR2L-7 with an NSF approved glass door for a compact display refrigerator.
FFAR2LGLCSS7	Same as above with a full stainless steel cabinet for elegance, durability and easy cleaning.

All models on this page meet standards for commercial use and carry ETL-Sanitation, UL-Sanitation or NSF listing (comply with NSF Standard 7)

COMMERCIAL COUNTER-HIGH ALL-REFRIGERATORS

SUMMIT SCR600 series and FF7 series are commercially approved all refrigerators, ideal for use under (with proper ventilation) or above counters, or freestanding; with 5.5 cubic feet of capacity, yet with a compact footprint of only 24 inches wide and 24" deep. All models are fully auto-defrost and all models (except with optional door finishes or handles) have reversible doors. These models all feature Summit's unique "hidden" evaporator; mounted behind the rear wall, resulting in a clean, seamless interior liner, and a trouble-free defrost system.

SCR600BL	Black with glass door and aluminum door trim. Front lock and black handle. Reversible door. U.L. and ETL-Sanitation listed. Standard glass shelves .
SCR600BLCSS-RC (refreshment center).	Built-in model with both glass beverage shelves and two wooden wine shelves. Stainless steel cabinet and 12" pro stainless steel handle. Order RHD/LHD.
SCR600L	Same as SCR600BL but with white cabinet and white door trim. Standard wire shelves - optional glass shelves. Reversible door and white handle on base model.
SCR600LCSS-RC (Refreshment center).	Built-in SCR600L with both beverage shelves and two wooden wine shelves. Stainless steel cabinet and 12" pro stainless steel handle. Order RHD/LHD.
FF7	Solid door, commercial, all-refrigerator with flat door liner, large wire shelves (capable of holding trays 19.5 inches wide by 16 inches deep , automatic defrost, reversible door (on base models), ETL-Sanitation listed (equal to NSF-7), and our unique "hidden" evaporator for a clean seamless interior liner. White finish.
FF7L	Same as above with front door lock.
FF7B	Same as FF7, but in black finish with standard glass shelves .
FF7LBL	Same as FF7B with front door lock and standard glass shelves..
FF6-7	All refrigerator, 5.5 cu.ft. with door shelves in white with wire shelves.
FF6L-7	Same as above with front lock.

SCR600BLCSSSH

SCR600L

SCR600BL

SCR600BLCSS

SCR600LSH

Our SCR600 series has been in the SUMMIT line for decades, reliably offering one of the best values, and most versatile glass door refrigerators on the market today. With 24 inches of width and depth, the SCR600 has plenty of capacity; yet with finished sides and tabletop it can be used either freestanding or under-counter (with either our built-in option or proper ventilation). All SCR600 models feature SUMMIT's "hidden" evaporator (behind the rear wall) allowing this model to accommodate some of the largest shelves in its class. All SCR600 models are ETL-Sanitation listed (meets ANSI-NSF Standard 7), For commercial use, wooden shelves should be replaced with (available) wire scalloped wine shelves in the two refreshment center models. All models are fully auto-defrost.

All models on this page with black cabinets have aluminum door frames and glass shelves. Models with white cabinets have white door trim and wire shelves. Optional stainless steel shelves, stainless steel kickplates and a full seamless stainless steel cabinet is available for all models.

C-108

SOLID DOOR COMMERCIAL COMPACT FREEZERS

For convenient storage of frozen goods when space is limited, think SUMMIT. From "cube" sized to counter height, we have the solution to your needs.

FS62-7 Freezers are innovative and attractive; yet are engineered to be capable of meeting standards for commercial use and operate at -25°C. Ideal for medication, vaccines and food service applications where a low temperature freezer is required. Extra thick insulation and three interior drawers reduce energy waste. Choose a model in white or with a stainless steel frame for custom panels or a wrapped stainless steel door or cabinet. All models are manual defrost with three removable interior drawers (fixed position) and an adjustable thermostat. Cooling coils in the shelves for even cooling.

FS62-7	Solid door compact freezer, 24 inches wide, with reversible door, three interior baskets, oversized compressor capable of -25°C operation, manual defrost. White finish, adjustable thermostat. U.L. and ETL-S listed (meets NSF-7).
FS62L-7	Same as above with front mounted lock. Reversible door,
SCFF55	Under-counter, frost-free freezer, with commercial cooling system, reversible door, adjustable shelves, large variety of finish options, adjustable thermostat, and convenient 24 inch width and 33.5 inch height. U.L. and U.L. Sanitation listed. Capable of built-in use, but fully finished for freestanding use, as well.
SCFF55L	Same as above with front lock
SCFF55B	Same as SCFF55 but in black finish with glass shelves
SCFF55LBL	Same as above with front lock and glass shelves .
FS20L7	Compact "cube" sized above-counter all-freezer, manual defrost, capable of -20°C operation. Reversible door, front lock, one removable shelf, white finish, optional stainless steel finish or glass door. U.L. and ETL-Sanitation listed (meets NSF-7).
FS20LCSS7	Same as above with stainless steel cabinet and wrapped stainless steel door.
SCF400	Compact commercial chest freezer with glass lid, counter-balanced hinges, front lock, hammered aluminum interior and casters.

Model **SCFF55** has fan forced interior cooling for even temperature distribution, an adjustable thermostat, and never needs defrosting. The foamed in place insulation and solid foamed door also enhance energy efficiency. Available in 3 cabinet finishes (white, black or stainless steel) with a choice of door styles and handles, including our wrapped stainless steel door with a professional 12 inch towel bar handle.

Model **FS20L** is an ideal counter top freezer. Its dimensions are suitable for almost any small space. The front lock provides security and is easily accessible. The FS20L has an adjustable thermostat but it operates at -20°C (-4°F) which is an ideal temperature for long term storage of many foods, and for many clinical medical studies and vaccines. Manual defrost and reversible door. The FS20L's optional stainless steel finish features a completely wrapped stainless steel cabinet and door and compliments most decors.

Model	Capacity	Height	Width	Depth	Defrost	Door Swing	Door Finish	Cabinet Finish

SUMMIT HAS DOZENS OF FREEZER CHOICES:

- COMPACT
- MID-SIZED
- FULL SIZE
- DISPLAY
- FROST-FREE
- DRAWERS
- CHEST
- UPRIGHT
- ICE-CREAM
- LABORATORY
- OUTDOOR
- BUILT-IN

All models on this page meet standards for commercial use and carry ETL-Sanitation, UL-Sanitation or NSF listing (comply with NSF Standard 7)

GLASS DOOR COMMERCIAL FREEZERS

Compact, Affordable, Display Freezers - Choose Frost-Free Or Manual Defrost

SUMMIT continues our tradition of offering the largest selection of compact appliances in any category. Take compact glass door freezers. We offer a "cube" sized, a larger counter-top unit, and both a manual and frost-free counter-height model. All have UL and either UL or ETL Sanitation approval (equal to NSF7), and all will fit into your budget.

Our **SCFF55** is frost-free, and makes a perfect matched set with our FF7 all-refrigerator. It features forced air cooling, a reversible door, an optional front lock and is available in white, black or stainless steel. Models FS62LGL7 and SCFF55GL have heated doors for better product displays. Model SCFF55 is available with a white, black or stainless steel cabinet.

SCFF55GL	Frost-free operation with fan forced cooling and rapid temperature recovery in a white finish. Wire shelves. Optional lock (Model SCFF55LGL)
SCFF55BGL	Frost-free operation with fan forced cooling and rapid temperature recovery in a black finish with glass shelves . Optional lock (Model SCFF55LBLGL)
SCFF55LGLFROST	Frost-free glass door freezer to keep beer at 24°F to serve the coldest crispiest beer possible. White finish, wire shelves. Standard lock.
SCFF55LBLGLFROST	Same as above in black finish with glass shelves and lock.
FS627GL	High quality, value priced manual defrost freezer with removable interior drawers.
FS20LGL7	One of our most popular commercial freezers. Now with a glass door, it is ideal for sales of ice cream novelties. This model has a white finish, aluminum frame and a front lock.
SCFU375	Commercial glass door freezer with interior light and adjustable shelves. Manual defrost. Easily fits on a counter, but 24 inches wide for plenty of capacity.

SCFF55LGL
Frost-free freezer
(with optional 'SH' handle)

SCFF55LBLGLFROST Beer froster

Model **SCFF55LGLFROST** is a unique glass door frost-free "freezer" that has a digital thermostat, and offers aluminum beer bottles at an icy 24°F, where the beer is just above freezing, but the bottle will frost when exposed to room temperature.

FS627GL

SCFU375

FS20LGL7

BACK BAR BEER FROSTER

Summit back bar beer frosters are the ultimate in convenience and serving efficiency, with fully frost-free operation, a self closing lid for energy efficiency and temperature maintenance; and an easy-to-fit depth of 24 inches. Two sizes are available. The lids allow one handed serving safely, and the thoughtful locking pins allow the lid to be kept open for quick loading. Baskets are available for more easily rotating stock.

These models both include a precision digital thermostat, preset for 24°F, but adjustable to any temperature between 0°F and 45°F for chilling any beverage or frozen novelty. Beer kept at 24°F in aluminum bottles will literally frost when exposed to room temperature, and provide a uniquely satisfying experience for your customers.

Suffix	Name	Description
TH	Thermometer	Install a solar powered external readout thermometer to display internal temperature.
TT	Traceable (calibrated) thermometer	Install a battery powered external readout NIST traceable thermometer with a probe installed in a glycol solution for accurate temperature readings. Meets most Health Dept. regulations.
Keypad	Keypad lock	Add a keyless keypad lock on most SUMMIT refrigerators or freezers. Two door refrigerators require two locks. Accepts 10 user codes plus the master. Eliminates lost keys. Battery powered, emergency terminal for dead battery.
AC Keypad	AC powered Keypad lock	Same as above with the keypad and mechanism powered from the appliance's power cord.
ALARM	High Temperature Alarm	Install a battery powered high temperature warning alarm that displays internal temperature, as well as high and low temperature with a high temperature warning alarm. NIST Traceable and calibrated.
Casters	Set of casters (6")	Install a set of 6 inch NSF approved casters on selected models. Front casters will always have brakes.
DT	Digital Thermostat	Install a precision digital thermostat on selected refrigerators and freezers. Specify desired set point and range at time of order. Available in Fahrenheit and Celsius.
L	Side lock	Install SUMMIT's exclusive side mounted lock on most models. Two door units require two locks.
LLF	Front lock	Install SUMMIT's exclusive front lock on selected two door refrigerators. One lock locks both doors.
FC	Internal Fan	Mount an internal air circulation fan on selected models. Includes fan housing and air distribution channel.
FLL	Fluorescent light	Install a fluorescent light with on/off switch in selected glass door refrigerators.
Dolly	Free standing dolly	Adjustable dolly to hold most SUMMIT refrigerators or freezers that are 24" wide and 24" deep or less.
GLS	Glass shelves	Add glass shelves to many 24 inch wide under-counter built-in refrigerators (selected models only).
SHLFSS	Stainless steel shelves	Add a set of stainless steel shelves to selected under-counter 24 inch wide refrigerators.
SSK	Stainless steel kickplate	Add a stainless steel kickplate to selected under-counter 24 inch wide refrigerators and freezers.
HG	Hospital Grade Plug	Install a hospital grade cord and plug (green dot) to most refrigerators or freezers.
FR	Frame for Panels	Install a frame to accept slide in panels to selected under-counter refrigerators, freezers and beer coolers.
IF	Integrated frame	Install a frame to accept full overlay panels on selected under-counter refrigerators and freezers.
Key	Extra Key	Extra keys for selected models with locks. Specify model numbers.
Shelf	Extra Shelf	Extra shelves for selected models. Specify model number.
Pump	Drain pump	Drain pump for built-in or outdoor icemakers, where a drain is not convenient.
IB	Ice bank	Install an ice-bank of holding plates to protect chest freezers in event of power outage (selected freezers).
LEG	Flanged & Seismic Legs	Add 6 inch legs to selected appliances. Choose from flanged (sit on floor) or seismic (to attach to rods).
SSdrip tray	Stainless steel drip tray	Stainless steel drip tray for any beer dispenser.
AM	Anti-microbial coating	Stainless steel cabinets or wrapped stainless steel doors can be constructed of genuine AGION™ Anti-microbial coated steel. Matching handles will also have anti-microbial coating.
